Our Mission

We are a leading provider of holistic foundational education to preschool children. We believe in your child being multi-dimensional and provide an ideal setup for that. In our school, your child will develop not only cognitive, physical, linguistic and visual skills but also Indian cultural ethos. Social and emotional development is integrated into our curriculum to help your child blossom into a confident and smart personality. Our school is the ideal choice to bring out the innate strengths of your child and unlock the potential.

Our Method

Our modular 3 year curriculum combines Montessori & Traditional Systems with Modern Innovative Practices to suit every child's unique way of learning.

- Concepts through demonstrations to ensure better retention
- Phonics modules help your child read story books independently by UKG, opening a world of fascination and imagination for them. Reading and conversing skills are developed in two languages.
- Motor skills are developed through indoor and outdoor activities involving exercises, games and free play.
- Visual skills developed through color days, arts and crafts, as well as outdoor trips to appreciate nature
- Social and emotional development through role plays and group activities
